

EVERWOODS™ COLOR CONCENTRATES FROM HUDSON COLOR DELIVER NO-FADE GOOD LOOKS AND LONG LIFE

The Best Choice For Wood-Plastic Composites

Get the appearance, performance and processing advantages with Hudson Color's EverWoods Concentrates for all thermoplastics extruded wood-plastic composites, now available in a variety of standard wood-tone colors or custom matched by request.

Use EverWoods Concentrates to create:

- Outdoor Decking • Railings
- Fencing • Playground Structures
- Door and Window Frames • Trim
- Outdoor Cladding • Gazebos
- Patio Structures • Outdoor Furniture
- Outdoor Spas and Hot Tubs
- Boat Docks • Boat Houses

Use EverWoods Concentrates to:

- Get better color dispersion and improve surface appearance
- Resist staining and improve impact resistance
- Gain long-term durability with no fading
- Increase extrusion line speeds without edge tearing
- Improve dimensional stability and reduce warping
