

## Permanent / Removable Double Coated Adhesives NF1739, NF1749, NF1759, NF1769

### Got Glass?

Nova has a solution! Our new double-coated permanent/removable **NF1749** adhesive has been tested for over a year on glass and leaves no residue! It is perfect for countless applications and also available with a white carrier for opacity.

*"We have tried many different removable adhesives for window applications but after our graphics were up for a month, the adhesive left residue on the glass. **NF1749** has solved that problem for us and our customers are now satisfied."*

- Graphic Arts Customer, MN

### Temporary Display?

We all like store sales and Nova's **NF1739** double-coated permanent/removable adhesive is perfect for mounting to graphics that will temporarily replace an existing display sign. It removes from glass, high impact polystyrene, and other surfaces. **NF1739** is also recommended for short-term window and numerous applications and is also available with a white carrier for opacity.

*"One of customers needed a temporary sign for a week long shoe sale. We mounted the graphic with Nova's **NF1739** product over the existing display sign and the store associates experienced no problems with removing the graphic after the sale was over."*

- Graphic Arts Customer, OH

### Why Backprint?

Save your ink! Nova has many double-coated perm/perm and perm/removable adhesive products with a white carrier for opacity. Use with your store signage or backlit displays!

*"We were looking to avoid having our graphic backprinted with white ink so we chose Nova's **NF1769** perm/removable adhesive product. The results were great and provided just the right amount of opacity. Our customer was very happy with the results!"*
