

STI BOPPER STOPPER®

Smaller-size Covers to Protect Everything From Electrical Outlets to Push Buttons

Inexpensive and highly durable, these hinged covers live up to their name and can be used in a wide range of applications. Bopper Stopper can take hard knocks in stride while protecting digital keypads, electrical outlets, smaller-size pull stations, biometrics, volume or lighting controls and push buttons to name just a few. The covers and hinges are molded of super tough polycarbonate material. The devices feature a stainless steel torsion spring to keep the cover closed (excludes STI-6520). Bopper Stoppers come complete with installation screws and gasket.

Carries a Lifetime Guarantee

As all STI protective covers, these Bopper Stoppers are backed by a lifetime guarantee against breakage and damage in normal use. They are also highly cost effective and easy to install.

STI-6528

Features

- Molded from super tough polycarbonate material.
- Stainless steel torsion spring maintains the cover in a closed position (excludes STI-6528).
- Protects against both vandalism and accidental damage.
- Their many uses include protecting push button units, smaller-sized pull stations, keypads, electrical outlets, volume or lighting controls and shutdown switches.
- Covers are backed by a lifetime guarantee against breakage in normal use.
- Covers come complete with mounting hardware and gasket.
- Gasket replacement recommended after five years.
- Polycarbonate rated -40° to 120°F (-40° to 49°C).
- Helps stop ice and snow from making keypad units difficult to operate.
- Fast, easy installation.
